

SENIOR WELLNESS PLAN (feline)

Your pet may appear healthy, yet some diseases are hard to detect and often go unnoticed. Diagnosed early, most conditions can be completely reversed or controlled.

Our Senior Wellness Plan incorporates laboratory testing, which can be invaluable in revealing additional information concerning your pet's overall health above and beyond what can be detected by physical examination and your personal observation. Radiology may find growths or tumors, arthritis, enlarged organs, disc disease and even bladder stones.

Included in the Senior Wellness Plan (\$545.13):

- Professional Consultation
- Bloodwork
 - CBC (Complete Blood Count)
 - Superchem Panel
 - Electrolytes
 - Thyroid Screening
 - Precision PSL (pancreatitis)
 - FIV Antibody Test
 - FeLv Antigen ELISA
 - Heartworm Antibody Test
- Complete Urinalysis
- X-Rays of Chest and Abdomen
- Fecal Examination
- Eye Pressure Test
